SAIS S9 HD mono et triple écran - 1920 x 1080

SAIS-S9, the new & cost effective "Transportable Computer Building Block" from SAIS. Put it at the heart of your high-performance portable computer solutions. Designed for field and mobile applications!

This portable computer chassis allows you to combine the latest in high-performance motherboards and add-in special function boards with a large display into a system that is compact and extremely rugged. It offers a cost effective solution to performance demanding portable computing applications.

The system's integrated LCD offers a high-resolution flicker-free visual environment that rivals tradition CRT monitors. The SAIS-S9 has the capability to accept a maximum of seven expansion cards (motherboard dependent) along with two 3½" Disk Drives, one 5¼" Drive and one each slim-line 3½" & 5¼" Disk Drives, offering expansion capability unmatched by any other portable system. The all-aluminium SAIS-S9 chassis is the ideal solution for applications such as portable servers, network/communications testing, field data acquisition, remote field service, exploration, factory monitoring/automation, new technology demonstration, and much more.

Card Retention System
SAIS-S9 has a double card retention system that holds individual add-on cards securely at two points, with an adjustable pressure mechanism ensuring that half and full-length cards are secure during transportation.

LCD Screen
Spark-S9 offers LCD sizes in **single 17" or triple 17.3"** wide screen.

Power Supply
Previous models of our trans-portable computers required special custom shape power supplies. With the Spark-S9 any standard desktop power supply will fit this chassis so you can meet the varying power requirements of different motherboards now and in the future.

Features

- 7 slots ATX form factor
- Rugged industrial build quality
- Light weight aluminum chassis
- Supports INTEL and AMD SOCKET type CPU

- Integrated card retention stabilizers
- Low profile membrane keyboard
- Built-in glide point mouse pad
- Built-in amplified speakers

General Specification

| |
|---|
| ATX form factor |
| Light weight aluminum chassis |
| Add-on card stabilizer |
| Air circulation fan with filter |
| LCD brightness control |
| POWER/IDE LED indicator |
| Built-in amplified stereo speakers |
| Fits standard desktop power supply |
| Low profile membrane keyboard |
| Mouse touch pad with dual buttons |
| Soft wheeled carrying case |
